

Do these problems sound familiar?

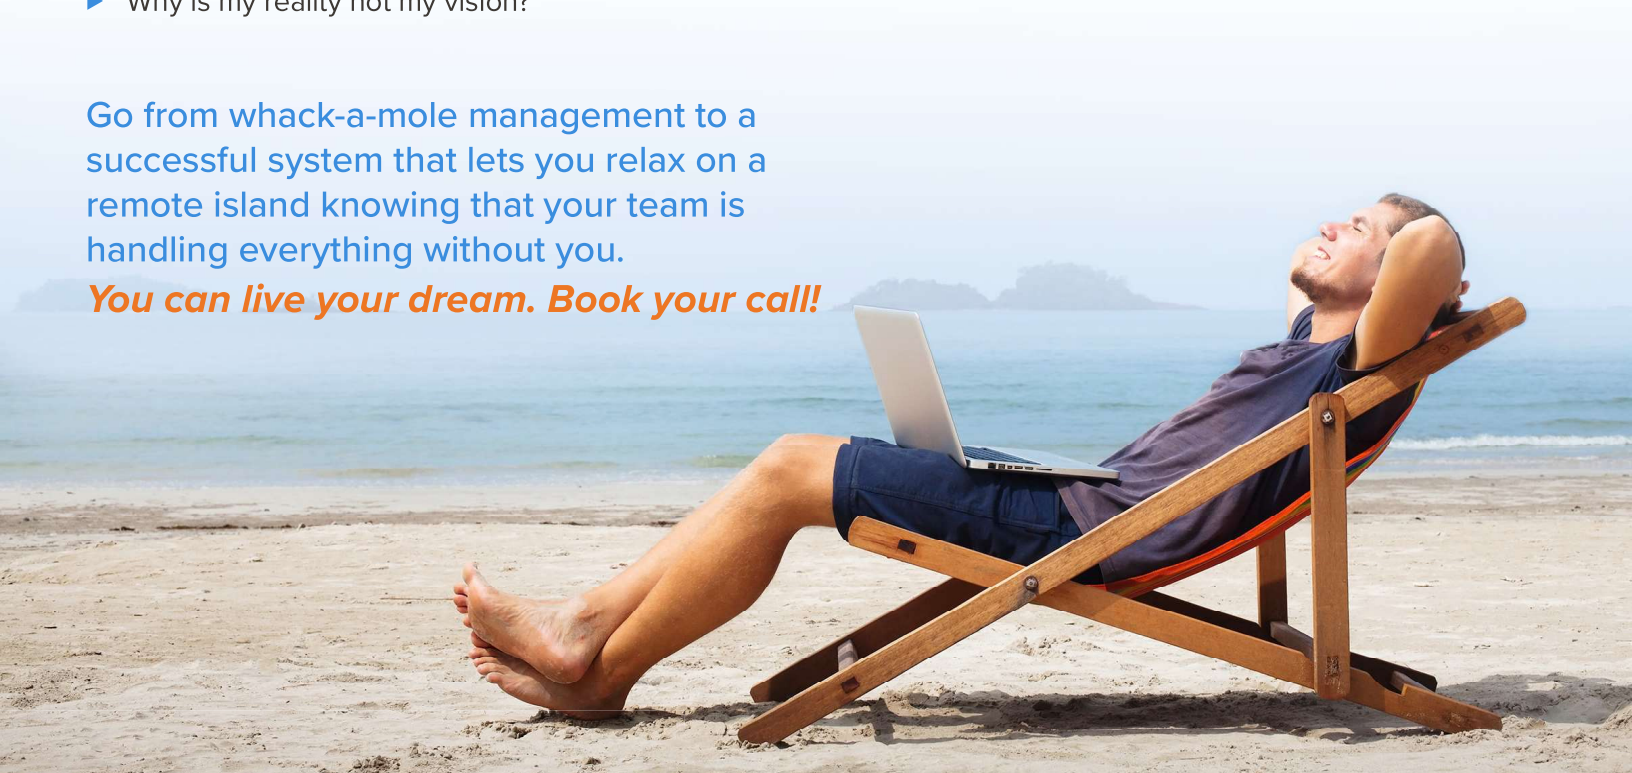

- ▶ My business is running me and I'm not living my best life.
- ▶ I'm disorganized. I can't communicate my vision; my people aren't accountable and I'm paddling with little progress.
- ▶ Why is my reality not my vision?

Go from whack-a-mole management to a successful system that lets you relax on a remote island knowing that your team is handling everything without you.

You can live your dream. Book your call!

I believe your reality should match your vision.

I have successfully launched several entrepreneurial companies, one of which achieved an eight-figure exit. By implementing a systemized process that builds accountability, structure, and discipline, you can grow a business that lets you live the life of your dreams.

Does your entrepreneurial vision match the company you run today?

My Journey

I've been there. My CFO stole money, we had no plan – much less the ability to execute on one and ended up seven million in debt. The business was running me, and I was not living my best life.

WHAT LEONARD'S CLIENTS ARE SAYING

"Leonard has given our team direction through using this system. If you're running a business and feel like you're just throwing things at the wall to see what sticks, then this system and Leonard Lynskey are the solution. Once we developed a structure, it really helped us to identify some of the core issues of our business."

– **Jim Floyd, Owner:**
Studio Fitness

"Thanks for today, it was life changing."

– **Health Hill, CEO:**
Lime Media

"We were blinded by profitability, revenue, and growth while lacking in effective processes, communication, and structure. This manifested into big profits, giving way to big losses. Since we started implementing this system, we've taken bites out of the elephant, one at a time, and have seen a remarkable turn around. Had we not initiated the course correction with Leonard, I genuinely do not know where we would be."

– **Garth Hinze, CEO:**
Ark Pharmacies

"It is the difference between being told by your doctor you need to lose weight and actually having a personal trainer with a plan on how to do it. A personal trainer has the skills to coach, teach, and help integrate these new habits into real life."

– **Chanttel Allen, The Olinger Group New Orleans**

"We immediately recognized this system's huge upside and ability to not only save money, but identify issues and get them fixed much more efficiently. In less than 60 days, we have implemented changes that resulted in over \$300,000.00 annually with another \$400,000.00 already in place to execute over the next 60 days."

– **Jimmy Parker, President:**
Stat Overnight Delivery

"We would not have survived COVID without having implemented the EOS Process."

– **Shane Cole, CEO:**
iCare ER & Urgent Care
