

Building a Healthcare Program thru Edwards

A Company That's Been Around Since 1867

Healthcare Programs

- Hospitals
- Assisted Living Facilities

Hospitals

Assisted Living Facilities

Building the Brand

It's all about Image!

- The most significant contributing factors to attract patients to a healthcare facility are the “physicians and employees,” and “the clinic’s environment.”
- Medical Professionals wear uniforms to display a professional look that is distinctive and symbolizes confidence to patients and their families.
- Wearing uniforms erases confusion and allows employees from different departments to be identified easily for assistance.
- Uniforms represent consistency and trust to patients.
- Wearing uniforms help medical professionals have a sense of pride in their jobs and their company. When you feel good about your work, performance increases.

Clinical Staff

- Doctors / Physicians
- Nurses / LPN's
- Lab Techs
- MRI Technicians
- Physical Therapists
- Respiratory Therapists

Custom Aprons

INTRODUCING CUSTOM APRONS.

We now offer low minimum custom aprons. Create a specialty apron, or change a color from a stock design, the possibilities are endless. Made in the USA, these custom aprons are 65% Polyester/35% Cotton Twill, 7.5 oz. and feature Soil Release. Our team can assist you in creating your one-of-a-kind design.

Send us your ideas. We'll do the rest.

STYLE

Choose apron type (bib, waist, bib/waist, cobbler or vest) and determine pocket requirements and locations.

COLOR

Select from our library of colors, as shown.

EXTRAS

Add webbing, contrast stitching, fastener buckles or grommets.

DETAILS

- Price varies based on selection.
- The Custom Apron Program requires a 40-piece minimum per color, and per style.
- All custom garments may incur a 10% overage/shrinkage.
- Shipping takes place two weeks after garment approval.
- A pre-production sample can be requested at an additional cost.

(left to right)
Black, Brown, Hunter Green, Kelly Green, Khaki, Maroon, Navy Orange, Pink, Purple, Red, Royal, Teal, White, Yellow, Hot Pink, Silver Gray, Charcoal Gray, Light Blue, Tangerine, Black Denim

Why

Why Choose Edwards Over Other Vendors?

- Edwards is a **Uniform** Company – we focus on Program Business.
- Our products are built to last 50+ washings.
- Our products are classic styles that stay in the market longer.
- Our products remain in our line for extended periods of time.
- Our Territory Managers understand the Program Business.
- We have an internal Programs Team to help you from start to finish!
- We care about you and your business!

Why Edwards Over a Rental Program?

- Potential cost savings of up to 45%.
- Edwards offers a breadth of products not offered in rental services.
- No contracts to sign.
- No “under-wash” fees – fees for cleaning that are not performed as the wearer does not turn in the uniform for servicing.
- Home washing often results in longer lasting garments as harsh cleaning chemicals are not used in the washing process.
- Purchasing uniforms eliminates hidden contract costs.
 - No new employee set up fees.
 - No annual rental cost increases.
 - No lost garment fees.

RENT OR PURCHASE?

A Cost Comparison

	Cost To Rent	Inventory	Cost to Purchase	Inventory
Price Per Man Per Week	\$6.00	11 Shirts 11 Pants	\$15.99/Shirt \$16.99/Pant	5 Shirts 5 Pants
30 Man Acct Per Week	\$180.00			
30 Man Acct Per Year	\$9,360.00		\$4,947.00 / Year *1	
Turnover @ 10%	3 Men		\$494.70	
Lost Charges	\$98.94	6 Lost Garments	\$98.94 (\$16.49 Avg x 6 Garments	
Damage Charges	\$98.94	6 Damaged Garments	\$98.94 (\$16.49 Avg x 6 Garments	
Fuel/Delivery Fee	\$7.50 Per Week \$390 Per Year			
Prep & Emblem	\$3.00 Emblem \$1.00 Per Garment \$210.00 \$66.00 \$276 Per Year	12 Garments Per Year	Included in Price	
Total Cost Per Year	\$10,223.88	45% SAVINGS OVER 5 YEAR PERIOD	\$5,639.58	
Total Cost Over 5 Years	\$51,119.40		\$28,197.90	

edwardsgarment.com

What are the Top 10 questions to ask when developing a program?

- Is there an existing program today? If so, is there a contract? When does it expire?
- What are the pain points the end user is experiencing?
- Who is involved in the decision making process?
- What is the expected annual volume?
- How many wearers are there? How many men? How many women?
- What are the job titles / responsibilities of the employees?
- Do you plan to have employees home launder?
- Is the program company paid or employee paid? Will the company buy any or all of the required uniform garments?
- Will this program require on line ordering? Customized reporting?
- What is the estimated launch date?

Now is the Time to Build Healthcare Programs!

- There are many opportunities for Edwards to partner with you to help grow your business – Hospitals, Assisted Living Facilities, Clinics, Doctor / Dentist Offices – to name a few!
- After seeing this presentation, what questions do you have for us?

THE CUSTOM PROCESS

Knowledge is power when it comes to hyper-branding custom apparel. The more our design team knows about the mission at hand, the better the design output.

OUR WISH LIST:

1. All available vector (functional) art files
2. Brand guidelines
3. Budget—we will reverse engineer to your budget estimates, maximizing quality and design impact.
4. Quantity needed
5. In-hands delivery deadline
6. End-user website links
7. Insight to any additional relevant graphic elements (historical images, patterns, textures, etc.)
8. Web links / pictures / sketches of any existing garments which have features or styling you wish incorporated.
9. Are there specific functional elements that we can incorporate? (pocketing, range of motion needs, technical finishes, etc.)
10. Aside from the expected custom labeling, can we add messaging and / or specific function to the **INSIDE** of the garment?
11. Anything notable about demographics, corporate culture, mission statements, strategic partnerships or co-branding?
12. Are there any specific avoidances?

Our unrivalled photo-real design process is without a doubt a big part of the Bishop secret sauce

It not only provides great clarity for the design decision making process, but prior to the physical sampling process starting up, it instils great confidence that what you see is what you will get.

This said, a pretty picture is just that, a pretty picture. There is another step in the process that is just as important. Enter engineering!

Every Bishop photo-real design board goes through a full engineering review to confirm production viability. This ensures that all designs are ready to move to sampling and production without delay. Even minor revisions will go through the same review process.

When we speak to our over 300 years of apparel design and sourcing experience, it is these layers of experience through the entire custom apparel process that solidified our stellar reputation.

This!

BEYOND TREND

2022 Trend Report

We would love to present the Bishop 2022 Trend Report to your team and your largest clients or prime targets.

Every year the 300+ years of Bishop team experience organically creates a trend forecast that encompasses all things fashion, but then weaves in the latest embellishment innovation given the hyper-branding mission is at the heart of what we do in concert with our creative agency partners.

• 6 TREND GROUPS • 13 SUBTRENDS

As trends are fluid, this content evolves throughout the year. Consequently our most advanced partners routinely request that we tailor trend presentations with both their merchandising teams as well as their largest clients.

These presentations can be both virtual, or most effective in-person given the added luxury of compelling garment samples to compliment

Schedule a trends presentation with us and get ahead of the pack.

The Tag-it Vest

This high neck hooded technical double-knit vest provides warmth and stretch for yearlong use with unrestricted movement. It can be one of those core items that can be paired and layered with a variety of apparel pieces.

The top panels with custom accordion quilting will ensure warmth and a textural play balanced with solid bottom and side panels keeping the tailored silhouette intact. The vest comes with a removable hood, to suit varying client needs and choices.

The polyester content can be replaced with recycled polyester. A patch that lists a count of bottles saved per garment can be added inside or outside the vest. Adding a bottle count as a design detail instills a very interesting purpose to the garment and a story to tell.

The storm flap incorporates accent striping along with an oversized 'remove before flight' style aviator tag pull. The reflective on the pull tag is balanced with a tech pixel inspired reflective taping along the armhole area, which can be further explored in zinc / silver infused yarn to keep odor away by inhibiting bacterial load.

The zipper pulls can be removed and used as a 'key chain for your car keys, etc. providing dual utility to your clients and associates.

The left chest logo can be either a high density 3D embroidery or a silicone embossed patch for a premium finish.

There are various opportunities to further apply branding to the vest by adding a step and repeat print to the hood liner or by adding one of your favorite slogans or tag lines to the storm flap.

The Tag-it Vest

FABRIC

- 75% Cotton / 25% Recycled Polyester Double Interlock
- 275 gsm
- Reflective pixel grid (armhole taping)

FEATURES

1. Embroidered left chest logo
2. Textured Ottoman panels at upper chest, back, and centre hood
3. Striped back nape locker loop
4. Removable key tag zipper pull with reflective tab
5. Inspiration: Uniform Experiment (FRAGILE zipper pulls)
6. Hood zipper
7. Pixel print reflective armhole binding
8. Striped tape printed storm flap
